

Article description: Body straightening workstation CELETTE GRIFFON 2800 Evolution

Article number: WE190023A

Price: 36.260,- €

Technical data:

Lifting capacity:	2.800 kg
Length:	4,35 meters
Max. pulling force:	10 t
Power connection:	110V / 230V/ 400V – 50Hz/ 60Hz
Air connection:	8 bar
Oil tank:	7 Liters

Dimensions:

Maximum height:	1.320 / 1.840 mm (incl. Scissor jack))
Height lowered:	0-550 mm
Total length:	6.200 mm (incl. drive-on ramps)
Width:	1.100 / 2.050 mm (incl. drive-on ramps)
Weight:	2.274 kg
Retractable in the ground:	yes

Product description:

Bodywork straightening workstation for passenger cars and light transporters up to 2.8t gross vehicle weight. The GRIFFON 2800 Evolution is a straightening and bodywork platform for daily use in a bodywork workshop for cars and vans up to 5.5 meters in length and 2.8 tons in weight. It combines the advantages of a drive-on platform with those of a frame machine and is suitable for all body repairs and overhauls. Thanks to its two hydraulic scissor jacks, vehicles up to 2.8t gross vehicle weight can be lifted to an ideal working height, enabling the technician to work efficiently and ergonomically.

It can also be used as a measuring platform in combination with the NAJA measuring system for car body measurement.

Advantages at a glance:

- Easy drive on and anchoring of the vehicle
- Ergonomic working height for efficient and economical working
- Compatible with all CELETTE straightening systems
- CELETTE components from former frame machines can be reused
- Upgrade and combination option with electronic measuring system NAJA
- Designed for heavy, complex pulling operations up to 10t
- Suitable for vehicles up to 2.8t gross vehicle weight with mechanical parts in or out
